

Technical drawing of a bridge structure, likely a girder bridge, showing dimensions and labels. The drawing includes a north arrow in the upper right corner. Key dimensions and labels are as follows:

- Dimensions:**
  - 13.6m (vertical distance from the top of the bridge deck to the top of the girder flange on the left side).
  - 13.7m (vertical distance from the top of the bridge deck to the top of the girder flange on the right side).
  - 34.6m (horizontal distance between the centerlines of the two main spans).
  - 26.5m (horizontal distance from the centerline of the left span to the centerline of the approach span).
  - 8.8m (horizontal distance from the centerline of the right span to the centerline of the approach span).
- Labels:**
  - 至 赤坂バイパス東口 (To Akasaka Bypass East Exit) on the left side.
  - 至 福山市 (To Fukuoka City) on the right side.
  - 2P (likely indicating a 2-lane or 2-lane plus shoulder configuration) at several points along the bridge deck.
  - 1 (likely indicating a 1-lane or 1-lane plus shoulder configuration) at several points along the bridge deck.
  - 2 (likely indicating a 2-lane or 2-lane plus shoulder configuration) at the center of the main span.
