This technical drawing illustrates a road intersection. A vertical road runs through the center, intersecting with a horizontal road. The horizontal road has a median strip. On the left side of the horizontal road, there are three lanes with arrows indicating traffic flow: one lane with a right-turn arrow, and two lanes with straight-ahead arrows. On the right side of the horizontal road, there are three lanes with arrows indicating traffic flow: one lane with a left-turn arrow, and two lanes with straight-ahead arrows. The vertical road has two lanes on each side. At the intersection, there are traffic signals and pedestrian crossings. The drawing includes dimensions: 44.0m for the width of the intersection area and 35.0m for the width of the median strip. There are also labels for '設計' (Design) and '30' in circles, and a compass rose indicating North (N), South (S), East (E), and West (W). The text '至 中広1丁目' (To Nakagyo 1-chome) is written on the left side of the horizontal road.
