This technical drawing shows a four-way intersection of a road. The vertical road has a width of 34.6m, and the horizontal road has a width of 27.0m. The intersection is controlled by traffic signals, with signal heads labeled '2P' at each corner. Lane markings include straight-ahead, left-turn, and right-turn lanes on both sides. A north arrow is located in the top right corner, pointing towards the upper right. The drawing is labeled '設計 30' (Design 30) at the top and '設計 2' (Design 2) at the bottom. The text '至 西観音' (To Seigyo-in) is written on the left side, and '至' (To) is on the right side. A circled number '5' is present on both the left and right sides. A legend in the bottom left corner lists 'ステータス機能' (Status Function), 'S3:減灯' (S3: Dimming), and 'その他' (Others).
